The provisions of the UCI's BMX Rulebook in its latest version apply with a few amendments:

- Riders categories: as set forth above;
- BMX European Cup (Championship classes):
Championship riders are seeded according to the current UCI Individual ranking. The event on the second day is seeded using the Final Classification of the event on the first day;
- For all Challenge categories scrambled seeding is used for the motos according to Article 6.1.033. In the motos, for each heat in which he competes, a rider shall receive a point score equal to his finish position in the heat, with the rider in first place earning one point and so on down to the eighth-place rider, who will receive eight points. During the motos, riders scored with an IRM will receive a score for that heat in accordance with article 6.1.034.
The riders with the lowest total points earned in the motos transfer to the next Phase of the BMX Race in accordance with the rules set forth in Annex 1. In the Qualifiers, the top four finishing riders will transfer to the next Stage of the Qualifiers. In the 1/2 Finals, the top four finishing riders will transfer to the Final.
In case Scrambled Seeding is used for the motos, transfers following the motos are done on an aggregate basis for each complete category. That is, following the motos, a classification for all riders in each category based upon the total scores following the motos (in accordance with the method described above) is made. The best ranked riders in this classification will transfer to the next Phase of the event. The number of riders who transfer to the next Phase depends upon the number of riders entered and confirmed following riders confirmation, as described in Annex 1. Ties in transferring positions are resolved in accordance with the method described in Article 6.1.0356.
For avoidance of doubt, in the specific case of a category that has 9 riders and confirmed following riders' confirmation, the 7 riders with the lowest total points earned in the motos shall transfer to the Final.
- Rider's equipment:
 - The use of interlocking pedal-cleat systems is allowed for categories 13 years and over.
 - All riders receive a number plate and side plate from UEC at registration of the UEC BMX European Cup Race. In all UEC sanctioned BMX events a rider must display the number plate and side plate assigned to him. A rider who fails to display the correct number plates will be refused their start, or relegated, if it is noticed after beginning a heat or run.
 - all Championship and Challenge riders must either wear a clearly visible national flag of their country on both shoulders or the national jersey of their country otherwise they will not be allowed to start.
 - if a Championship rider is National Champion in their class, this rider must wear either:
 - the jersey awarded by the federation,
 - a replica of that jersey with publicity in the spaces allowed by the regulations,
 - their normal jersey with the left sleeve designed to look like the flag of their country

- Number of motos: in case of special conditions (weather, wind or else) or a high number of participants, the UEC BMX Commission allows the PCP in agreement with the UEC Technical delegate to reduce the number of motos. This can only apply for challenge classes and never for championship classes.
- Team Managers meeting will be on Friday evening at 16:00. The location of the meeting will be indicated at the event.

The participation is mandatory for:

- max. 1 National Delegate (Chef d'Equipe)
