## Copenhagen

Denmark is located in northern Europe between the North Sea and the Baltic Sea. It is the southernmost of the three Scandinavian countries and consists of a mainland peninsula, Jutland, and 406 islands. Denmark has a population of 5.3 million people, of whom seven per cent are of foreign origins.

1.7 million people live in the Greater Copenhagen Area. The Øresund Region, consisting of Copenhagen and southern Sweden (Skåne), has a total population of 2.8 million inhabitants.

The capital, Copenhagen, is situated on the island of Sealand and is the largest city in Scandinavia. Copenhagen is a city full of zest and life. A pulsating metropol and historical oasis that offers a wide range of great cultural events, world class sights and attractions, shopping and loads of restaurants, bars, cafés and night clubs.

As the largest city in Scandinavia, the travel hub of the region and a lively centre for culture and the arts, there is something happening virtually every day of the year in Copenhagen. Check out what is happening in Copenhagen this week right

With its rich history full of historical buildings and ancient streets, its outstanding museums and galleries, the uniquely enchanting Tivoli Gardens and a resident monarchy that is the oldest in the world, the Danish capital has a host of attractions to suit all tastes.

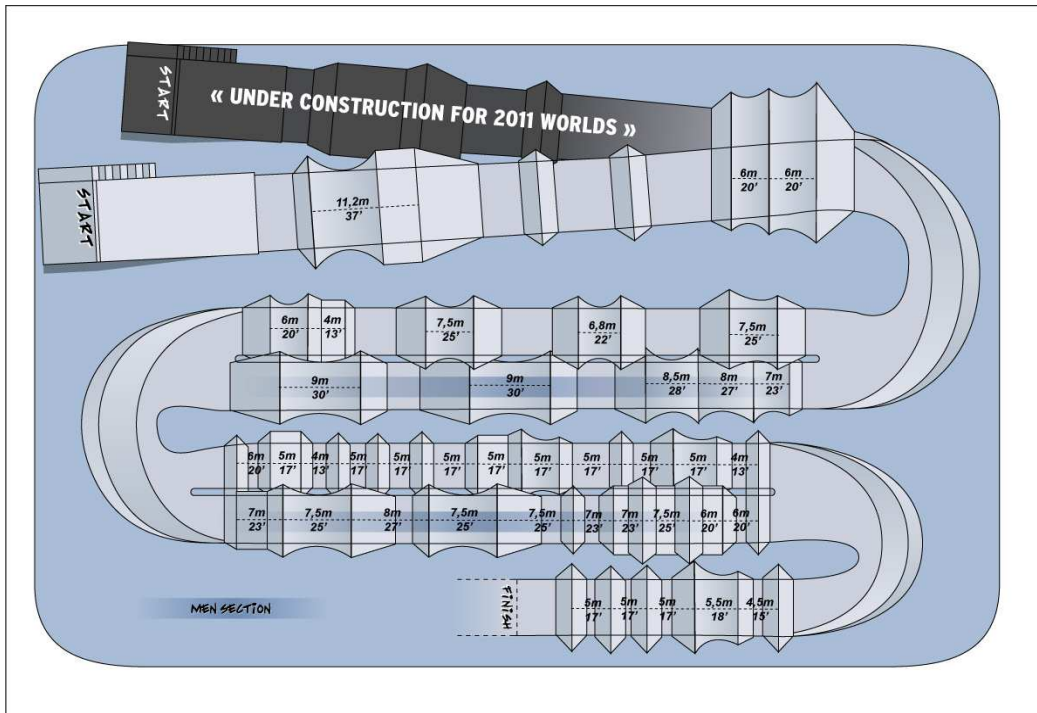

But this is no living museum. Copenhagen is a vibrant, modern city whose fascinating past coexists with the very latest trends in architecture, design and fashion. This is, after all, one of the world's great design capitals, a status that is reflected in its dynamic new buildings and stunning shops.
