History

- Situated on a 70-hectare site, the current Mountain Bike trail is 10 km long and offers several climbs as well as a challenging downhill sections and single-tracks. The trail hosted the Singapore Mountain Bike Carnival in 2008 and 2009, involving more than 500 participants from the US, Australia and the Asian region.
- For this year's MTB XCO race, a 3km section of the trail, is being upgraded to make it even more technically challenging.
- The BMX track has been developed into a full-scaled BMX track designed and built by UCI BMX track builder, Tom Ritzenthaler.
- The start and finish areas of the Mountain Bike and BMX track in the bike park are adjacent to one another, allowing the spectators the best possible view of both events.
